DIVISION B—SAVING COAL JOBS

SEC. 1001. SHORT TITLE.

This division may be cited as the “Saving Coal Jobs Act of 2013”.

TITLE I—PROHIBITION ON ENERGY TAX **SEC. 1101. PROHIBITION ON ENERGY TAX.**

(a) FINDINGS; PURPOSES.—

(1) FINDINGS.—Congress finds that—

(A) on June 25, 2013, President Obama issued a Presidential memorandum directing the Administrator of the Environmental Protection Agency to issue regulations relating to power sector carbon pollution standards for existing coal fired power plants;

(B) the issuance of that memorandum circumvents Congress and the will of the people of the United States;

(C) any action to control emissions of greenhouse gases from existing coal fired power plants in the United States by mandating a national energy tax would devastate major sectors of the economy, cost thousands of jobs, and increase energy costs for low-income households, small businesses, and seniors on fixed income;

(D) joblessness increases the likelihood of hospital visits, illnesses, and premature deaths;

(E) according to testimony on June 15, 2011, before the Committee on Environment and Public Works of the Senate by Dr. Harvey Brenner of Johns Hopkins University, “The unemployment rate is well established as a risk factor for elevated illness and mortality rates in epidemiological studies performed since the early 1980s. In addition to influences on mental disorder, suicide and alcohol abuse and alcoholism, unemployment is also an important risk factor in cardiovascular disease and overall decreases in life expectancy.”;

(F) according to the National Center for Health Statistics, “children in poor families were four times as likely to be in fair or poor health as children that were not poor”;

(G) any major decision that would cost the economy of the United States millions of

dollars and lead to serious negative health effects for the people of the United States should be debated and explicitly authorized by Congress, not approved by a Presidential memorandum or regulations; and

(H) any policy adopted by Congress should make United States energy as clean as practicable, as quickly as practicable, without increasing the cost of energy for struggling families, seniors, low-income households, and small businesses.

(2) PURPOSES.—The purposes of this section are—

(A) to ensure that—

(i) a national energy tax is not imposed on the economy of the United States; and

(ii) struggling families, seniors, low-income households, and small businesses do not experience skyrocketing electricity bills and joblessness;

(B) to protect the people of the United States, particularly families, seniors, and children, from the serious negative health effects of joblessness;

(C) to allow sufficient time for Congress to develop and authorize an appropriate mechanism to address the energy needs of the United States and the potential challenges posed by severe weather; and

(D) to restore the legislative process and congressional authority over the energy policy of the United States.

(b) PRESIDENTIAL MEMORANDUM.—Notwithstanding any other provision of law, the head of a Federal agency shall not promulgate any regulation relating to power sector carbon pollution standards or any substantially similar regulation on or after June 25, 2013, unless that regulation is explicitly authorized by an Act of Congress.

TITLE II—PERMITS

SEC. 1201. NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM.

“(A) IN GENERAL.—Notwithstanding any other provision of law, in making a determination whether to approve a new permit

or a renewed permit, the permitting authority—

“(i) shall base the determination only on compliance with regulations issued by the Administrator or the permitting authority; and

“(ii) shall not base the determination on the extent of adherence of the applicant for the new permit or renewed permit to guidance.

“(B) NEW PERMITS.—If the permitting authority does not approve or deny an application for a new permit by the date that is 270 days after the date of receipt of the application for the new permit, the applicant may operate as if the application were approved in accordance with Federal law for the period of time for which a permit from the same industry would be approved.

“(C) SUBSTANTIAL COMPLETENESS.—In determining whether an application for a new permit or a renewed permit received under this paragraph is substantially complete, the permitting authority shall use standards for determining substantial completeness of similar permits for similar facilities submitted in fiscal year 2007.”.

“(H) to ensure that any permit for a discharge from a publicly owned treatment works includes conditions to require the identification in terms of character and volume of pollutants of any significant source introducing pollutants subject to pretreatment standards under section 307(b) into the treatment works and a program to ensure compliance with those pretreatment standards by each source, in addition to adequate notice, which shall include information on the quality and quantity of effluent to be introduced into the treatment works and any anticipated impact of the change in the quantity or quality of effluent to be discharged from the publicly owned treatment works, to the permitting agency of—

“(i) new introductions into the treatment works of pollutants from any source that would be a new source (as defined in section 306(a)) if the source were discharging pollutants;
